Research Papers

Psoralen damage-induced plasmid recombination in *Saccharomyces cerevisiae*: dependence on *RAD1* and *RAD52*
W.A. Saffran, C.R. Cantor, E.D. Smith and M. Magdi (U.S.A.) 1

Nuclease modification in Chinese hamster cells hypersensitive to DNA cross-linking agents — A model for Fanconi anemia
K. Sakaguchi, M.Z. Zdzienicka, P.V. Harris and J.B. Boyd (U.S.A., The Netherlands) 11

Quantitative detection of DNA damage in cells after exposure to ionizing radiation by means of an improved immunochemical assay
A.A.W.M. Van Loon, R.H. Groenendijk, A.J. Timmerman, G.P. Van der Schans, P.H.M. Lohman and R.A. Baan (The Netherlands) 19

HeLa cell single-stranded DNA-binding protein increases the accuracy of DNA synthesis by DNA polymerase α in vitro
M.P. Carty, A.S. Levine and K. Dixon (U.S.A.) 29

Determinants of cisplatin sensitivity in non-malignant non-drug-selected human T cell lines
M. Dabholkar, R. Parker and E. Reed (U.S.A.) 45

Transcription-dependent and independent DNA excision repair pathways in human cells
M. Carreau and D. Hunting (Canada) 57

Differences in DNA damage induced by mutagenic and nonmutagenic 4-aminoazobenzene derivatives in *Escherichia coli*
M. Kojima, T. Morita, M. Degawa, Y. Hashimoto and M. Tada (Japan) 65

Protective effects of ether, oxygen and their mixture for radiation in *Drosophila melanogaster*
T. Megumi, S. Gamo and Y. Tsujii (Japan) 73

Phenotypes conferred by the *Bacillus subtilis* recM13 mutation and the din23 fusion
M.S. Osburne, S.M. Zavodny, M. Greenstein and W.M. Maiese (U.S.A.) 79

Absence of strand-specific repair of cyclobutane pyrimidine dimers in active genes in *Drosophila melanogaster Kc* cells
J.G.R. de Cock, E.C. Klink, P.H.M. Lohman and J.C.J. Eeken (The Netherlands) 85

Inhibition of transcription and strand-specific DNA repair by α-amanitin in Chinese hamster ovary cells
F.C. Christians and P.C. Hanawalt (U.S.A.) 93

Repair of DNA damage induced by oxygen radicals in human non-proliferating and proliferating lymphocytes
E. Kaminskas and J.C. Li (U.S.A.) 103

Radiation-sensitive *irs* mutants rejoin DNA double-strand breaks with efficiency similar to that of parental V79 cells but show altered response to radiation-induced G_2 delay
N. Cheong, Y. Wang, M. Jackson and G. Iliakis (U.S.A.) 111

Excision repair influences the site and strand specificity of sunlight mutagenesis in yeast
J.D. Armstrong and B.A. Kunz (Canada) 123

Spontaneous and ultraviolet-induced mutations on a single-stranded shuttle vector transfected into monkey cells
C. Madzak, J.B. Cabral-Neto, C.F.M. Menck and A. Sarasin (France) 135

UV-induced *hprt* mutations in a UV-sensitive hamster cell line from complementation group 3 are biased towards the transcribed strand
H. Vrieling, L.-H. Zhang, A.A. van Zeeland and M.Z. Zdzienicka (Netherlands, Sweden) 147

Conference Report

Workshop on DNA-repair genes. Held at the 9th International Congress of Radiation Research, Toronto, Canada, 7–12 July 1991
M. McKay and P. Hanawalt (Australia, USA) 157

Research Papers

Cell cycle progression in *den*V-transfected murine fibroblasts exposed to ultraviolet radiation
D.F. Kusewitt, C.L. Budge, H.A. Nolla, B.S. Edwards and R.D. Ley (USA) 163

Increased sensitivity of a Chinese hamster ovary cell line to alkylating agents after overexpression of the human metallothionein II-A gene
T. Robson, A. Hall and H. Lohrer (UK) 177

Mutations affecting sensitivity of the cellular slime mold *Dictyostelium discoideum* to DNA-damaging agents
C.E. Bronner, D.L. Welker and R.A. Deering (USA) 187

Homologous recombination of adenovirus DNA in mammalian cells: enhanced recombination following UV-irradiation of the virus
A.J. Rainbow and J.E. Castillo (Canada) 201

Xeroderma pigmentosum group A correcting protein from calf thymus
A.P.M. Eker, W. Vermeulen, N. Miura, K. Tanaka, N.G.J. Jaspers, J.H.J. Hoeijmakers and D. Bootsma (The Netherlands, Japan) 211

Mammalian cells share a common pathway for the relief of DNA replication arrest by O^6-alkyl guanine, incorporated 6-thioguanine and UV photoproducts
D.B. Godfrey, S.D. Bouffler, S.R.R. Musk, M.J. Raman and R.T. Johnson (UK, India) 225

Differential gene expression in wild-type and X-ray-sensitive mutants of Chinese hamster ovary cell lines
W. Zhu, P.C. Keng and W.-G. Chou (USA) 237

Contents, Vol. 274 (1992) 247
